**Ato Isayas Afeworki has virtually wrecked the Eritrean Air Force as well to some degree the Ethiopian Air Force by inserting huge espionage network inside the Ethiopian Air Force community. He perfected illegal tactics of draining out the professionals of the Ethiopian Air Force and recruit them in the Air Force he owns.**

**Ato Isayas Afeworki: the architecture of de-Eritreanization of the Eritrean Air Force**

**Ato Isayas has been offering four times the salary the Ethiopian government would pay to any Ethiopian air force professional who is willing to abandon his native job and move to Eritrea to join his Air Force. Additionally he has been offering crazy bonuses, which are beyond the normal imaginations on top of the X4 salary in order to enhance the uprooting of the professionals from Ethiopia to Eritrea.**

**Pre border war of Ethio-Eritrea, Ato Isayas's ENDA-72, the espionage network in Ethiopia and his spymaster Shalleqa Bezabh Pietros at the Ethiopian Air Force community were busy identifying candidates for the pump.**

**Santa of trap.**

**Major General Teklai Habteselassie,  
Eritrean Air Force Chief.**

**Major General Teklai Habteselassie, chief of the Eritrean Air Force was the "Bego Adragie" or Santa of the intricate trap of the recruitment.**

**Major General Teklai has been brilliantly employing an old time personal relationship he had with the Ethiopian Air Force community to lure the professionals to Eritrea.**

**One of those lured professionals by the "Bego Adragie" was Captain Kindie Damtie, a former colleague at the Ethiopian Air Force. The glimpse into the up to now hidden picture of Ato Isayas's spying inside the Ethiopian Air Force and the way Captain Kindie was identified as a prime candidate is the subject of my article.**

**My fellow Eritreans, the trap which the Santa set up to entice Captain Kendie is shocking. Captain Kendie too was shocked by the enormous VIP treatment he received during his arrival at Asmara International Airport. He didn't anticipate he was that much important. The mission of seduction is fully disclosed in the Youtube of Captain Kendie interview by ESAT. The link is displayed below.**

**For so long, Ato Isayas has been waging huge efforts to de-Eritreanize the Eritrean Air Force and replace the Eritrean personnel with Ethiopian natives in order to make sure the Eritrean Air Force remains securely subservient to his crown.**

**Captain Kindie asserted Eritrean Air Force is an 80% Ethiopian native. This incredibly high percentage of the de-Eritreanization of the Eritrean Air Force is a litmus paper of how we Eritrean mainstream public have**

**been totally ignorant of the fatalistic transformations at the EAF as a result of the maneuver by Ato Isayas. The more I dig to uncover Ato Isayas the more I find that we are losers.**

ESAT News Analysis 03 September 2015 Capitain Kinde

**NOTE: In the interview Captain Kindie Damtie has some incorrect information regarding the so called "the downed MiG fighter bomber of Shalleqa Bezabh Pietros by the Air Defense Units of Eritrea on June 6, 1998". Captain Kindie was inside a bunker during the bombardment of Asmara airport by the Ethiopian MiGs. He never saw with his eyes, "the shooting down of a MiG fighter bomber by the Air Defense Units of Eritrea". Simply, he was told like any Eritrean of the "downed MiG and the capturing of Shalleqa Bezabh Pietros".**
