**PART - 2**

**In 1994 in the Nakfa of Death, E.P.L.F. No.2 Romodan Mohammed Nur was badly trashed.**

## **Nakfa of Death**

**In 1991 Isayas became omnipotent in Eritrea after the defeat of Derg by the joint E.P.L.F. - T.P.L.F. military operations.**

**In 1994 the hastily prepared 3rd Congress of the E.P.L.F. was held in Nakfa. It was the pivotal moment in the annals of the E.P.L.F. In the Congress, Isayas affirmed these two items.**

- 1. For the first time he officially admitted the presence of Hubue Selfi within the E.P.L.F. He said the role of the Hubue Selfi was very important for the E.P.L.F. to achieve victory. He also said, now its job is done and it had to be terminated.**
- 2. Isayas affirmed, never ever would be a repeat of the "childish Adma of Tegadelti".**

**Adma of Tegadelti took place on June 20, 1993. That day from 2 PM to 6 PM Tegadelti usurped power from Isayas and they fully subdued him. Also Tegadelti humiliated him badly. That evening he restored his power to its original status after narrowly escaping the coup d'etat.**

**Like 1973, 1994 was also a fateful year. In all aspects the 3rd Congress was Nakfa of death. The mighty E.P.L.F was on the chopping block. A brand new Peoples Front for Democracy and Justice was enshrined. The highly respected Romodan Mohammed Nur who was considered the No. 2 man in E.P.L.F. and who had the longest historical record in the revolution was badly trashed. While he was thrown to the garbage bin a pair of unknowns Yemane Gebreab and Hagos Gebrehiwet ascended to the key powers.**

**Isayas's affirmation in the Nakfa of Death to terminate Hubue Selfi was grossly a misleading statement. After the Congress he secretly embarked on a grand project. He established a new Shadow of magnitude never seen before. The new Hubue Selfi is called Eritrean Socialist Party (Ertrawi Mahbernetawi Selfi). E.S.P. is behemoth in size in comparison to the old timer E.P.R.P. E.S.P. numbered thousands compared to the E.P.R.P., which were few hundreds; 10,000 to 500 scale.**

**Isayas carefully inserted this new Shadow into every smallest unit of the military and into all sectors of the civilian Eritrean government and in all public**

**institutions of the country including insertions into all walks of the lives of the ordinary citizens. In Asmara do not underestimate the corner shoe shiner.**

**After 1994 the immense influence of The Shadow would be felt inside Eritrea as well abroad. Isayas targeted in particular two opposition organizations in Ethiopia, which had evolved out of the deceased E.L.F.**

### **Tale of two Fronts in Ethiopia**

**After liberation of Eritrea Isayas was ready to implement The Shadow deep into the newly liberated land of Ethiopia.**

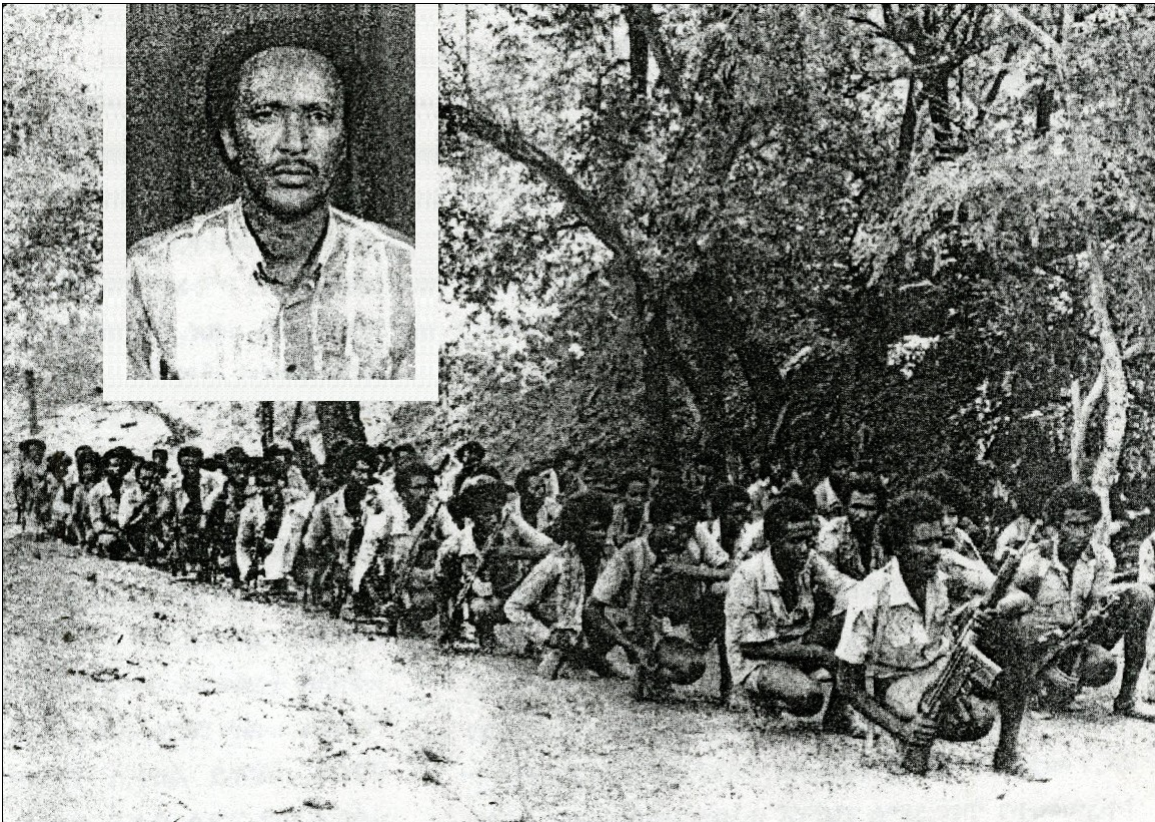

**In Ethiopia, there were two newly developed opposition organizations, which began to operate freely inside Ethiopia known as Sewrawi Democrasiawi Genbar Eritra and SAGEM.**

**Ghebreberhan Zerai Wolde Brookh,  
Chairman of Sewrawi Democrasiawi Genbar Eritra.**

**Sewrawi Democrasiawi Genbar Eritra successfully established the first training camps inside Ethiopia and was poised toward periodic growth. Then came the swoop by The Shadow.**

**The Shadow captured the Chairman of Sewrawi Democrasiawi Genbar Eritra, Ghebreberhan Zerai Wolde Brookh, deep inside Ethiopia and hauled him to Eritrea. The Shadow used a silencer to assassinate the No. 2, Zekarias Neguse in his office. The recruits in the camps were infested with bogus new recruits who joined the organization as new "Tegadelti". The Shadow penetrated Democrasiawi Genbar at the top in the leadership as well the recruits at the bottom. Democrasiawi Genbar sustained severe internal damages.**

**Tegadelti of SAGEM inside Ethiopia and Chairman of SAGEM, Tewelde Gebreselassie in 1993.**

**Life was not either easy to SAGEM. The Regime in Asmara was continually annoying the Tigray Administrators to shut down SAGEM. In a high level meeting of the Administrators of Tigray and the Administrators of Debub, the Administrators of Tigray denied the presence of SAGEM. Then Shadow dropped on the discussion table a bombshell of evidence, a photograph of a transport vehicle owned by SAGEM, which undeniably verified the presence of SAGEM in**

**Ethiopia. The Administrators of Tigray would freeze in shame over the evidence by The Shadow.**

**The evidence would prompt an action by the Tigrayans against the SAGEM. At one point the Tigrayans kicked out a bunch of cadre of SAGEM from Ethiopia through Moyale, a border-crossing town between Ethiopia and Kenya.**

**SAGEM would have to disappear underground to satisfy the Tigrayans only to surface later when conditions permitted. However one of the extra ordinary achievements of SAGEM was their cadre and leaders saved themselves from any assassination or capturing by The Shadow due to their increased level of guarding their organization from of The Shadow.**

**Ethiopia became a free land for The Shadow. Assassinations of Eritreans in Addis Ababa by The Shadow began to be recorded for the first time in the history of Eritreans residing in Addis Ababa. The Shadow also infiltrated the Ethiopian Air force community and the Ethiopian elites and professionals.**

#### **Specially Mutated Eritreans**

**Eritrea is the only nation in the world in which The Shadow particularly monitors the civilian Eritreans in real time globally. You go to Birmingham, England . . . London, Ontario in Canada . . . Vancouver, Western Canada . . . Minneapolis, Minnesota . . . San Diego, California . . . Atlanta, Georgia . . . Perth, Australia . . . Auckland, New Zealand etc. the presence of The Shadow is as common as buying a slice of pizza down the street.**

**The Shadow uses all types of assassination tools. They have acquired a mysterious poisons classified as Bilkat by The Shadow. Bilkat were used to kill quietly unsuspecting victims. Bilkat means a cream in the ordinary language.**

**The Shadow collects all kinds of info: home addresses, email addresses, phone numbers, passwords, email exchanges, texts, political involvements or participations, etc. including the cell phone number of a humble wife of any opposition member.**

**The emergence of the United Eritrean Democratic Front as a major player in espionage heralds the beginning of the end of Isayas's superiority. At last a specially mutated Eritreans have come to catch up. Thanks U.E.D.F. Keep up the good job.**
